

Elite Aluminum introduces our new **LED** lighting system that can be easily installed into our 2x3 conduit / fan support. Modernize the lighting in all your Elite enclosures and add to your bottom line.

Installation is a breeze:

- (1) Core drill 2-5/8" hole through fan beam
- (2) Attach wires to electrical source
- (3) Slide light into hole and the patented wedge design snaps light into place.

Cost Saving Benefits:

- (1) 10w LED equal to 65w incadescent
- (2) 16%kw usage of electricty
- (3) 25,000 hrs of use vs. 1,200 hrs
- (4) No hazardous mercury as in CFL's
- (5) No effect with on / off cycling
- (6) Fraction of heat emitting vs. standard

SPECIFICATION:

Cover Diam.: 3 inches

Power: 10w

Beam Angel: 90

CCT: 4000-4500k (White)

Warranty: Two Years

Dimmable: Yes
