with Horizontal Rollers**

**Eze-Breeze® Sliding Panels
open to provide 75%
ventilation**

THE NATURESCOPE GLASS ROOM

This NatureScape® sunroom offers you the same high-quality glass windows you'll find in new home construction. These durable aluminum windows meet or exceed AAMA standards and feature an interlocking meeting rail to prevent air and water infiltration. They even meet forced entry standards for home security. You can choose from a wide variety of window and roof styles to match your home, plus optional French or sliding glass doors. A lot of options add up to a lot of reasons to consider a NatureScape® sunroom.

THERMALLY-BROKEN NATURESCOPE GLASS ROOM

In addition to bringing the best of the outside in, this room is the best at keeping the worst of the outside out. Extra-wide 3-inch thermally-broken wall panels dramatically reduce the transference of heat and cold so you can enjoy your room more months of the year. Premium, durable vinyl-framed glass windows offer excellent thermal qualities, and you get a choice of colors, rooflines and styles that can make your room seem like an architect-designed addition at a fraction of the cost.

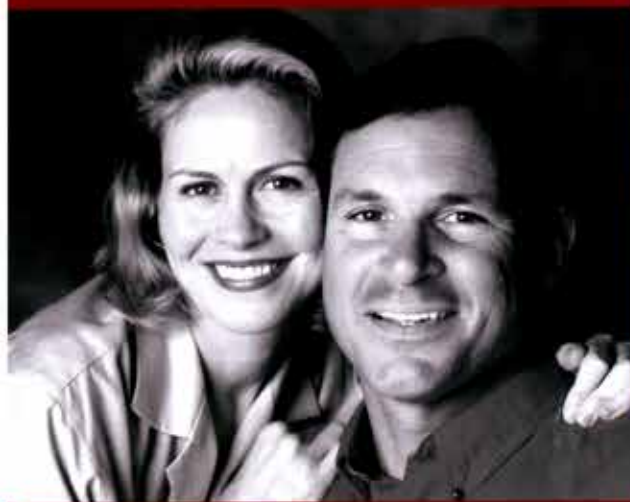

WE'VE GOT YOU COVERED

Our insulated interlocking roof systems are the only panel in the industry to offer locking design options that best suit your needs.

Elite's patented interlocking designs are attractive, maintenance free, structurally sound and engineered to withstand the most extreme weather conditions.

The panels have been subjected to rigorous testing and have earned the Energy Star[®], meeting strict energy efficient guidelines set by the United States Environmental Protection Agency and the U.S. Department of Energy.

Elite roof panels are structurally designed to allow the application of shingles, tile, architectural metal or other aesthetic covering to complement your home. Decorative trim caps the ends for an eye-pleasing finish.

"We have been impressed by the quality of construction of our NatureScape sunroom. It's solid, tight and blends beautifully with our home."

Henry & Pat Konkle
Albion, MI

Your NatureScape[®] sunroom lets you bring the best of the outdoors inside. NatureScape[®] offers more unobstructed views than any other sunroom, plus, the space you need for more enjoyable living, relaxing in a hot tub, entertaining holiday guests or just sitting back and enjoying the evening breeze.

NatureScape[®] sunrooms are durable, maintenance free, and are backed by our reliable warranty.

Because each one is custom-built, NatureScape[®] sunrooms can be almost any size you choose. They also offer more options than any other sunroom. Your room can be ordered, delivered and installed in time to enjoy the rest of the season.

So what's it going to be?

THE NATURESCAPE[®] SUNROOM WITH EZE-BREEZE[®] SLIDING PANELS

Eze-Breeze[®] sliding panels are an exclusive NatureScape[®] feature and a particular favorite among homeowners. They slide easily, adjusting to allow up to 75% of the window to be open for ventilation and views (see bottom right photo). When the weather co-operates, you'll have that open screened-porch feeling. And when things turn damp or chilly, these unique vinyl-glazed panels provide excellent protection when closed. They're weather resistant, feature durable aluminum frames and shatterproof vinyl panels. The flexible material is transparent and returns to its original shape if hit or distorted. If you're having a hard time choosing between a screened porch and a sunroom, the Eze-Breeze[®] option is for you!

Eze-Breeze[®] is a registered trademark of PGT Industries.

CUSTOMIZE YOUR NATURESCOPE SUNROOM

“Custom-built” takes on a whole new meaning when you design your NatureScape® sunroom. You can choose from a selection of interior and exterior materials, and colors; select window and door styles and glazing; choose door hardware finishes that complement your decor; and even rooflines and roof colors. Ask your dealer about the details that can make your NatureScape® sunroom unique.

PRODUCT WARRANTY

Your NatureScape® sunroom comes with its own reliable warranty. Ask your dealer for a copy.
